

Acoustic Treatment Pack

Features:

- Average diffusion: 0.52 / m² [$>100\text{Hz}; <5\text{KHz}$].
- NRC average: 0.26 / m² [$>100\text{Hz}; <5\text{KHz}$].
- EPS Euroclass fire-retardant (NP EN 13501-1).
- In stock for immediate delivery.
- Very easy to install.
- Installation: glues included.
- Other colours available upon consultation.

STRIPEFUSER®

Diffusion Panel

The STRIPEFUSER® acoustic panel is the least expensive model of diffusers of our brand. It has a striped shape and is made of high quality 100% recyclable ecologic EPS raw material.

This model can be combined with the STRIPESORB®; as a result, two different acoustic areas keep maintaining the same shape.

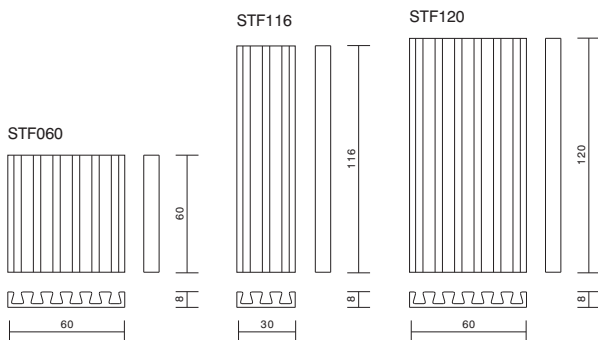

The STRIPEFUSER® offers associate absorption because the uniform protruding stripes make the sound to enter directly into the concavities. This product offers uniform unidirectional diffusion and provides an attractive design to ceilings and walls.

It is a cost-effective diffuser as an alternative to other more expensive diffusion panels.

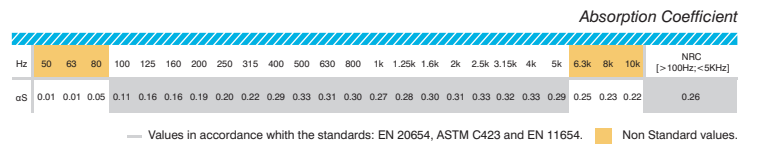

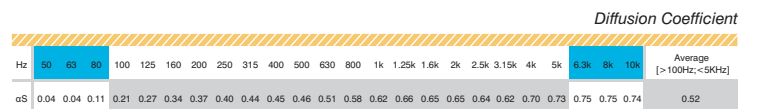

Package Data:

	STF060				STF116				STF120			
	H	W	D	Kg	H	W	D	Kg	H	W	D	Kg
4 units/box	35 cm	64 cm	64 cm	4.3					124 cm	64 cm	30 cm	7.4
6 units/box					124 cm	64 cm	30 cm	7.2				
8 units/box									124 cm	64 cm	51 cm	17.1
12 units/box	104 cm	64 cm	64 cm	12
